President's List 2014, 2015

Technical Skills

Java	Python	HTML/CSS	SQL Database
C #	Bootstrap	Angular Material	JavaScript/jQuery
GitHub	Agile		

Academic Projects

University of Central Missouri, Warrensburg, MO
Senior Project (Fall 2019) - As a team of five, we developed "GetFed", a web app designed for the Federal Reserve's in-house cafeteria. This app allows individuals to place an order at the sandwich bar ahead of time. Our team utilized Agile methodology to divide the workload and structure the project timeline. My responsibilities included functional design and development of code for the admin page.

Ranken Technical College, St. Louis, MO
Website Project (Spring 2015)- Developed a mobile responsive website integrated with Bootstrap for BMI, a local piping and insulation business

Work Experience

Financial Reconciliation Analyst (August 2018 -December 2019)
University of Central Missouri, Warrensburg, MO
- Code all daily student charges and post individually to the system server
- Extract financial records related to university bookstore POS and online transactions from multiple servers/sources and verify charges are correct and properly coded
- Reconcile payments to ensure the accounting system reflects the correct transactions to the student and/or their Financial Aid account
- Access and review student records in compliance with federal FERPA confidentiality guidelines

Community Involvement

Tau Kappa Epsilon (TKE) - Alumni (Jan 2017 - Present)
Participated in weekly meeting and contributed to the development of the organization's values and goals.

Volunteer Service:
- Highway & City cleanups
- Jugs for Jude, a fundraiser for St. Jude's Children's Hospital
- Laura Culp Pageant, a pageant held to help raise awareness of eating disorders and to support the Laura Culp Memorial Fund to provide scholarships
